

Andreas Kalcker
on Chlorine Dioxide (MMS) and Coronavirus

A Kerry Cassidy Interview of Andreas Kalcker on 7 April 2020 (~ 1 hr)
<https://lbry.tv/@Kalcker:7/FORBIDDEN-HEALTH --ANDREAS-KALCKER:c>

Transcript in case his server is sabotaged - Video is slow to load

|----|-----------------|--|
| 1. | Time/speaker | My understanding of what was said |
| 2. | 00:02:30 | Kalcker's background :
Andreas is German, but lived in Spain for 37 years but lives now in Switzerland. He is a biophysicist. He had bad arthritis and was looking for information. |
| 3. | 00:02:50 | 13 years ago - He did not want to try it on himself but tried it out first on his 13 year old dog crippled by arthritis. The next day the dog was running about barking – so he decided to take it. First thing he noticed was how it cleared his brain fog and then he noticed that he could move his arthritic fingers which were no longer painful. He was cured. |
| 4. | 00:05:30 | He shared his experience with friends who used it. He was sceptical that one substance could cure arthritis, diabetes, herpes zoster etc. – must be snake oil. But having experienced it himself, he decided to research ClO2 and nothing else
. |
| 5. | 00:05:50 | He found about its use in water treatment and disinfecting blood transfusion from donors during HIV epidemic (patent held by Alcide). If substance does not destroy blood and is used in drinking water it must have some use. |
| 6. | 00:08:00 | ClO2 only toxic in large doses but the gas is toxic to the lung and should not be inhaled. ClO2 is toxic – like water, you cannot breathe it but you can drink it. Over 100 years, there has not been a single death from drinking ClO2. Toxic dose - 292 mg per kilo (of body weight). So, unlikely to cause death. |
| 7. | 00:09:30 | He eventually found out that the common factor was metabolic acidosis. Usually, when a person has chronic disease, they become deficient in oxygen. ClO2 rapidly releases oxygen and reacts with the acid and it chemically burns the virus |
| 8. | 00:11:20 | The body burns calories for energy. ClO2 releases oxygen in the blood stream (easily measured with oximeter). The ClO2 provides energy. We are now energy deficient because we don't exert ourselves as we did in the past. |

9. 00:12:20 He is now testing it out on coronavirus. The medical profession were getting infected and a friend of his died. So, they tried taking it and got cured. So, they started testing on more and more people and find that it works.
10. 00:13:45 Kerry's personal experience - Kerry & partner got the flu and could not get rid of wen they were in Switzerland.
11. 00:15:30 Andreas – reason why Jim Humble was able to cure malaria with CLO2 was because before that the antimalarial drug was Hydroxychloroquine, which also contains chlorine but it has some severe side effects and is not suitable for heart problems. Hydroxychloroquine also contains chlorine –the oxidiser.
12. What is in it is well known but how it works is not known. CIO2 decays to a small amount of sodium chloride (salt) which the body can easily eliminate in 2 hours. So, you drink a little bit from a litre bottle all day and it does not harm.
13. 00:17:50 His sister contracted COID but was cured in 6 hours by CIO2
14. 00:18:40 Since it destroys by chemical burning, the virus cannot become resistant.
15. 00:18:40 It is very cheap and has thousands of applications, eg for washing chicken.
16. 00:19:23 Currently, CDS is not authorised for clinical use. He has patents for intravenous administration of CIO2, which is made in a very pure form by electrolysis. But, it is not intended for self-medication. He has no financial interest in CIO2. He has been in contact with governments and it has been accepted even by military – even India. He would like to talk to President Trump about this.
17. 00:21:00 He is getting involved with projects in numerous countries. CDS is cheap, fast, easy to make, safe, pH neutral and rapidly cures. Side effect – occasional diarrhoea. Kerry offered to help him communicate with Trump.
18. 00:23:00 What is the new solution made of and where do you buy it? You cannot buy it but you can make it yourself. He has provided all the information, including warnings etc.
He gives his web address andreaskalcker.com.
He is not interested in commercialising on CIO2 – he has been harassed and he has been barred from speaking. It is in several languages.
19. 00:25:00 AndreasKalcker.com is being continually improved – but it does work. Even medical specialist on this subject was harassed. Kerry also spoke to Robert Young who has also been harassed and jailed. This is because it is too cheap and seems .

20. There are different strains of the virus. If the virus can mutate in a few weeks, we cannot vaccinate so frequently.
21. 00:29:00 There is nasty virus (28 mins). There are several strains. So the vaccination does not make sense – it is bogus.
22. 00:30:00 Dr Young says this is due to excess toxic acidity caused by 5G, since infections seem to be greatest in those areas.
23. 00:31:00 Kalcker’s hypothesis is different - virus does not eat or defecate. So, where does it get its energy from? It violates the law of thermodynamics in physics. Viruses are very small compared to bacteria.
- He thinks that the virus is an electric parasite. Viruses appear where the body’s electricity (energy?) is very high, e.g. with herpes and psoriasis, which flares up when people get upset and nervous, creating more electricity
 Andreas have patented a Bio Trohn (very similar to what Hulda Clark provided the design for) to apply frequencies through the body to zap pathogens.
24. 0:34:55 There is a direct relationship between electricity and viral activity. Whether is 5G or 4G it has to be investigated? There is nno proof. There may be many causes.
 The high energy fields we live in, not just 5G, may cause problems but that needs research. For now, we need to get rid of the virus in circulation. A mother and daughter who had no chlorine dioxide used the Bio Trohn and recovered.
25. 0:35::44 Kerry: Is it a bioweapon created in a lab? The US holds many patents on viruses – not just CV, also SARS, HIV. Andreas does not know about the politics – CV-19 makes the best bioweapon. Other countries also hold patents – and how do you make patents on what you did not create? Is he implying that these viruses were created?
26. 0:38:21 He then shows how you make concentrated CDS. This is diluted to 50 ppm which is very dilute to drink it through the day. [I have separate page on how to make CDS]
 Tastes a bit like pool water. It is pH neutral and will not burn. But, read the information before you use it so that you don’t make mistakes.
27. 0:43:45 What would you say to President Trump. “I have the solution to COVID-19.”
28. 0:44:59 Oxygen drops (stabilised oxygen) is similar but weaker and used for purifying water. They sell it aeroplanes. If it is so dangerous why sell it on a plane? NaClO₂ is 25%. Oxygen drops are about 4 - 5% - you need 5 times the concentration.
29. 0:40:38 Hydroxychloroquine is basically tonic water with chlorine. But, how it works is not known. Andreas thinks it works on malaria because the parasite is sensitive to oxygen. In lab studies one has to be careful to ensure that they

don't get too oxidised.

30. 0:48:09 When to take CDS?
The dose has to be taken on its own. Cannot take it with antioxidants – it will not work. E.g. with orange juice or Vitamin C.
Other warnings are on his website.
Don't have anything to do with MMS any more. Andreas' idea is called CDS.
31. 0:53:00 His mission is to make people aware that there is a cure and that the forces of good will overcome the dark forces. Giving health and happiness is the biggest satisfaction to have. This has given meaning to his life.
32. 0:56:03 Don't take Vitamin C (supplements?) – There is enough in fruit and the half-life of Vitamin C is 13 days.
The idea that antioxidants is good is wrong.
